## C41 PHOTOGRAPHY & OUR SIGNATURE SERIES PORTRAIT LINE

---

Andy Warhol once said that the best thing about a picture is that it never changes even when the people in it do. As professional portrait artists we feel passionately about preserving your heritage by creating beautifully finished portraits that are guaranteed to last. Our work has often been referred to as...

- real and timeless
- engaging
- beyond ordinary, a true work of art

At C41 we have poured our heart and soul into creating a Signature Series Portrait line that rivals the old master artists. We bring our years of experience from developing film portraits in the dark room to studying with great artists from all over the world into each of our sessions to create your own priceless piece of portrait art.

## THE C41

# *Experience*

*“It’s been 5 years since we had our very first portrait session at C41. They instantly made us feel welcome as if we had been friends for years. Even our kids felt relaxed and had fun sharing secrets and silly words before the session started. The way they interacted with the children allowed their true personalities to emerge in a way that no previous photographer had been able to do before. I now understand the difference between a photographer and portrait artist. These portraits are among our most prized possession are displayed proudly in our home. We are honored to have worked with them for several years documenting our families heritage through their artistry and craftsmanship.”*

## *A look at our* SIGNATURE PORTRAIT LINE

---

All of our portraits are expertly crafted and meticulously hand finished for uncompromising quality. Each 8x10 signature portrait and larger is mounted on artist board to preserve and protect the portrait. All portraits are finished with a UV protectant glaze for a life-long protection.

You will not find a higher standard than our Giclee' wall portrait finish. The process yields prints of stunning vibrancy and realism by using archival-pigmented inks that provide expected print life of 100+years. Giclee' printing is the industries highest standard of printing on paper and canvas and we are honored to bring the best to our clients.

For those discerning clients who like the style and feel of a free-hand painting we offer our Ultime finish. Our artists use bush strokes to create a stunning Painter Portrait. The result is a finish that rivals oil paintings and gives a realism of a photo that feels as if it was hand painted.

Each piece is a one-of-a-kind work of art, and is signed by your portrait artists. We also include a certificate of authenticity. Our process takes 8-12 weeks to produce such quality by hand.

We consider a 16x20 and larger a wall portrait; packages that include a wall portrait come with a complimentary frame on your largest size.
